## SEXUAL ASSAULT POLICY STATEMENT

MidAmerica Nazarene University strongly denounces sexual assault in any form. The University urges the prompt reporting of any incident of sexual assault to the proper authority. Victims of a sex crime occurring on campus should immediately report it to the Campus Safety or to the local police department. Campus Safety will gladly assist any victim in contacting the appropriate law enforcement agency. In all cases, the protection of any physical evidence is of utmost importance. Following an incident, victims should not bathe or shower or launder clothing before being advised to do so by a law enforcement authority.

Individuals may also contact the Rape Crisis Hotline, 24-hours a day, by dialing (913) 642-0233. Calls are answered immediately during office hours. After hours, leave your name and number and you will be contacted within 15 minutes. Callers can also schedule an appointment to visit an outreach center.

The University's Community Formation Office will assist student victims of sex-related crimes with changes in academic schedules and living arrangements, as is reasonable and within the University's control.

Within the guidelines of the discipline procedures, the accuser and the accused may have other individuals present during disciplinary proceedings. Furthermore, both the accuser and the accused shall be informed of the University's final determination and any sanctions imposed on any individuals involved in the incident. The University may, upon final determination and confirmation of an alleged infraction (forcible or non-forcible), impose sanctions ranging from counseling to expulsion.

The Johnson County Sheriff's Department and the Kansas Bureau of Investigations maintain lists of registered sex offenders. The lists are accessible through either of the organizations' web sites. ## CAMPUS CRIME STATISTICS NOTES

→ All three (3) of the burglaries were attributed to crimes committed in the residential halls. We had twelve (12) counts of larceny (theft) that are not required to be reported in the Criminal Statistics. Thefts included stolen bikes, items stolen from vehicles, etc. and are not considered Burglary. Burglary, not larceny is required to be reported in the annual statistics.

→ The arrest for Drug Law Violations was the result of an incident where local police were investigating another crime that occurred off campus and came on campus to question a witness. They found illegally obtained prescription drugs in the vehicle and made the arrest.

→ All four (4) of the Judicial Referrals for Drug Law violations were attributed to one (1) incident on campus involving four (4) individuals. It involved the use of marijuana that happened off campus, and all 4 students lived on campus in residence halls.

→ The Judicial referral for weapons violation was the result of a student not properly checking in his weapon to Campus Safety and storing it in his room without permission.

In addition, they often provide services such as vehicle jump-starts and will provide safety escorts upon request. Campus safety officers have authority to conduct investigations of certain crimes reported on University property. They have authority on University property as well as the adjacent property belonging to College Church of the Nazarene. Officers receive training in areas of first aid, report writing, collection and preservation of evidence, traffic investigation, and other procedures that are relevant to their duties as campus safety officers. Uniforms identify them as campus safety officers. Major crimes and incidents are investigated by the Olathe Police Department. The Campus Safety Department fully cooperates with local, state and federal law enforcement agencies in the exercise of their responsibilities.

## CRIME REPORTING OPTIONS

It is the policy of MNU to encourage the accurate and prompt reporting of all crimes to Campus Safety or to an appropriate law enforcement agency. ## TIMELY NOTICE WARNING

Campus Safety will, upon receipt of information involving a potential threat to members of the University community, work cooperatively to provide information that assists community members in making informed decisions regarding their personal safety and security. These notifications will be made by posting bulletins in all high traffic area of the campus, including both the interior and exterior of buildings. An emergency text messaging system is also utilized, enabling university officials to immediately notify participating members of the community of a potential threat. Warnings may also be issued by campus e-mail. Warnings will include the following components:

- Circumstances regarding issuance
- How the information in the warning was obtained
- Individual or office responsible for issuing the warning

## DAILY LOG

The Campus Safety Department maintains a daily log in the form of an Incident Report Log. The log contains the crimes and incidents that occur on the campus. It is accessible to the public upon request. The information contained in the log includes the date, time, general location, a summary, and, if available, a disposition of the event.

The Incident Report Log is available at the office of Campus Safety in Land Gymnasium from 8 a.m. to 5 p.m. Monday through Friday (except holidays). To protect an ongoing criminal investigation or the identity of a victim, the Director of Campus Safety or a designee may classify information as "confidential" and prohibit its release.

## SECURITY & ACCESS TO CAMPUS FACILITIES

Security is provided through various means. Both mechanical and computerized lock systems are used. As of fall, 2006, all residence halls are secured by a proximity card activated access system. Apartment-style living facilities are protected by mechanical locks. Several other non-residential sites are secured in a similar fashion. Individual rooms within the residence halls are secured with a key actuated mechanical lock. Access cards are issued through a strictly controlled process. The Campus Safety Department issues all identification cards including access control cards. After hours, Campus Safety provides access to campus facilities to persons having permission to enter.

Several emergency call boxes are maintained on campus. These devices ring directly to the Campus Safety Department and may be used by anyone 24-hours-a-day to call a campus safety officer or to report information to Campus Safety.

The registration of all vehicles used by students, faculty and staff plays an important role in the safety of our campus. All students, faculty and staff are required to register their vehicles at Campus Safety and to display a valid parking permit. Campus guests and visitors can obtain a temporary parking permit.

The number of motor vehicles being parked and operated on the campus requires effective management for the overall good of the campus community. All members of the University are expected to comply with the various vehicle regulations including registration, parking and operation. Regulations governing parking on campus can be found in the student handbook that is located on MNU's website.

## INFORMATIONAL & EDUCATIONAL PROGRAMS

MNU provides information to students and employees about campus security procedures and practices. The University encourages every member of the school community to be responsible for their own security as well as the security of others. This is achieved by various means. Informational literature is distributed and programs and special training are provided by several on-campus organizations, including the Campus Safety Department, throughout the school year. Some of these programs are:

New student orientation is provided for all new students and their parents. Campus Safety provides information regarding how to report a crime, campus vehicle regulations, and crime prevention measures.

The Campus Safety Department publishes crime statistics on the web at: [www.mnu.edu/campus-safety/crime-statistics](http://www.mnu.edu/campus-safety/crime-statistics). Campus Safety is available to make presentations to academic classes and residence hall staff. During such presentations, they may describe their function, responsibilities, or campus regulations. They may also talk about current campus security

issues and emphasize the necessity for everyone to take

responsibility for their own safety and the safety of others.

Fire drills are conducted once each semester in all residential halls. Severe weather drills are conducted campus-wide each spring semester.

The Director of Campus Safety meets regularly with the staff of Student Development and the Residence Life staff. At these meetings, information is provided which informs and instructs this segment of the University staff.

## FIREARMS, WEAPONS, EXPLOSIVES, AND FIREWORKS POLICY

Explosive devices of any kind are not permitted on campus for any reason. Examples of explosive devices include, but are not limited to, dry ice bombs, fireworks, ammunition, smoke bombs, and bottle bombs. The use or possession of fireworks is prohibited by statutes of the State of Kansas and policies of MNU. Violators may be prosecuted by the State Fire Marshall as well as the University. Students bringing firearms, weapons, or knives to campus must check them in with Campus Safety immediately or be in violation of MNU policy. All firearms and weapons must remain with Campus Safety unless the student is taking these items off campus. Any device that fires or propels a projectile is considered a weapon at MNU. This includes, but is not limited to potato guns, balloon launchers, air soft guns, and BB or pellet guns.

## ALCOHOL AND ILLEGAL DRUGS

The possession, use, and sale of alcohol and illegal drugs are violations of MNU regulations and may be violations of local city ordinances, and state and federal law. Students and staff are advised that the laws governing these matters are enforced rigidly. While making this our position for violations, we also recognize that some people who use these substances will actively seek help to overcome their addiction. It is the desire of the University to reach out and assist by providing access to appropriate help. Students found in violation of the MNU's alcohol or chemical substance policy will be required to be evaluated by a therapist. If recommended by the therapist, the student will be required to enter an intervention program.

## CAMPUS FIRE SAFETY ANNUAL COMPLIANCE REPORT

The Higher Education Opportunity Act (Public Law 110-315) became law in August 2008. It requires all United States academic institutions to produce an annual fire safety report outlining fire safety practices, standards, and fire-related on-campus statistics. The Campus Fire Safety Report is part of the Annual Campus Fire, Safety & Crime Report and is available on-line at <http://www.mnu.edu/campus-safety-crime-report>.
